

Executive summary

WHO ARE WE

Cure hospital is established to offer wide range of specialized high quality medical services.

The location , Nasr City district, was selected as it has multiple criteria; it is considered to be a middle to high class area , it has busy active traffic facilitating easy access and it is close to other areas of east Cairo such as Heliopolis , new Cairo , and Maadi .

Cure Hospital provides integrated medical services for inpatients and outpatients as well as surgical services. These wide range highly qualified services are offered in valuable competitive prices in comparison to same level hospitals.

In addition to high quality medical services, we offer ultimate hospitality standard that suits different tastes and requirements.

Vision

Our vision is to change the face of healthcare delivery and to be one of the market leaders in private healthcare sector in the area by developing an integrated healthcare system, in compliance with international quality standards. We will help the sick become well, and help patients control their health in a lifelong effort at proactive wellness.

Mission

Our mission is to improve the level of health care services and to be the choice number one for patients, doctors and medical personnel and to provide exceptional service both medically and socially.

To achieve these targets, Cure Hospital is working hard to:

- Attract the best doctors and best nurses.
- Invest in the latest technology.
- Implement all measures necessary to ensure highest level in the operation rooms to be compatible with the trust gained from patients, surgeons and physicians.

Values

Quality: The measure of excellence that we strive to achieve in all that we are and wish to become. We will use measurable outcomes to validate our customer's satisfaction and our performance. We design and/or modify the way we work so that we continuously improve.

Integrity / Trust: The foundation by which we operate on a daily basis emphasizing the consideration of others, honesty in evaluation, and commitment to an ethical standard.

Spiritual: Our commitment to foster an environment that nurtures one's spiritual dimension so that inner peace is realized and life's fullest potential is achieved each day.

Respect: Our commitment to treat all people well and to promote self-respect and trust for residents, employees, and others, and the belief that each person deserves equal respect. This commitment includes respect for the individual patient's / resident's autonomy in decision making regarding all aspects of his or her care.

Commitment: Our responsibility to carry out our mission and to serve the values of the organization.

Innovation: Our process of creating or managing new ideas, methods, and technology to enhance existing services and to develop new ones. Innovation is stimulated by a strong awareness of the needs of those we serve, and thrives in this organization to promote new approaches to healthcare delivery.

SCOPE OF SERVICES

Outpatient services

Hospital emergency unit

The Emergency unit is ready to receive wide range of emergencies with all the facilities and equipment needed and under supervision of highly qualified emergency specialists and packed with consultants for all specialties on call, the unit works 24 hours /7 days per week.

Outpatient clinics

The outpatient clinics covering almost all medical specialties and subspecialties, all the outpatient's doctors hold highest scientific certificates either from best Egyptian universities or western accredited certificates such as British Royal Collage, European Board, Canadian Board or same level institutes.

The outpatient clinics equipped with all the required facilities for every specialty and they cover all day starting from 11:00 am to 11:00 pm.
